

VOLVO S60

INNOVATION FOR PEOPLE

Made by Sweden.

At Volvo Cars, we continuously innovate in order to make your life better. Every car, every technology and every design is the result of a clear vision – to put people at the heart of everything we do. It's a vision that has driven us from the start, one informed by Sweden, a country which values people as individuals and where conventions are challenged. It's a culture with a rich design heritage and a unique way of looking at the world.

This vision has inspired us to create the likes of the three-point safety belt and side-impact airbags – inventions that have saved lives and changed automotive history. And with our new generation of models we continue with this tradition.

Scandinavian design combines with modern Swedish luxury to enrich your experience. Intuitive technology makes life less complicated and keeps you connected with the world, while the latest Drive-E powertrains balance responsive power with class-leading efficiency. And our IntelliSafe innovations support you while you are driving, helping to prevent accidents and protecting you if one occurs. They make every journey safer, more comfortable and enjoyable.

We understand what's important to people. It forms the basis of all the innovations which we create. Innovations that improve lives.

At Volvo Cars we design our cars around you.

CHASSIS | 22

The S60 – like every Volvo – is a car that makes you feel special. A car that enhances your life through the enjoyment, comfort and beauty it provides.

At the heart of it all is a great driving experience. An experience that starts with the standard Dynamic Chassis, which we spent thousands of hours tuning to create a responsive, in-command feeling behind the wheel. It makes the S60 a car that you really enjoy spending time in. On the kind of roads you drive home on just for the enjoyment of driving, the S60 is your perfect companion

A range of Drive-E powertrains give you responsive performance as well as low fuel consumption and emissions. By using lightweight construction, low-friction technology and advanced transmissions they get the most out of every drop of fuel.

Inside, the S60 is a haven of calm and serenity. Our seats have been famous for their comfort ever since we took the unprecedented step of consulting ergonomic experts to help us develop

them, and the current generation are the latest example of this revolutionary approach. Supportive and comfortable, you will arrive fresh and relaxed after even the longest journey.

Sensus – our way of connecting you with your Volvo and the world around you – puts the latest technology at your command, in a way that's intuitive and natural. For the S60 it includes high-quality displays and easy-to-use controls that make life easier, as well as the option of high-end audio systems and internet connectivity that keeps you in touch with your digital world on the move.

Inside and out, the S60 embodies the best in Scandinavian design. You see it in the elegant and uncluttered interior, with its alluring blend of modern materials and traditional craftsmanship; in the confident presence the S60 has on the road.

From its bold, assertive front grille to its integrated tail pipes at the rear, the S60 is a car that has the power to make you feel good every day.

*"It's designed to have you look for any excuse
to get behind the wheel."*

VOLVO S60

*For people who enjoy
taking the long way home.*

The Volvo S60 is a beautifully balanced combination of dynamism, style and comfort.

If you are the kind of person who chooses the back roads to get home, you'll enjoy the crisp response of a well-balanced chassis. During the longer trips, the relaxed comfort will keep you and your passengers fresh for hours. In more challenging traffic situations – in the city, for example – a range of

supportive technologies will take the stress out of driving and keep you in control.

The agile character of your S60 is enhanced by its looks. The strong shoulders, the distinctive front with advanced headlamps, the sleek roofline and the powerfully sculpted rear section with integrated tailpipes – all make for a strong road presence. Inside, a beautifully crafted interior creates a calm

yet invigorating environment that creates a unique sense of well-being, just as it befits a Scandinavian design masterpiece.

Add our range of highly efficient Drive-E powertrains and our Sensus technology that connects your Volvo with the world around you – the S60 is truly designed to have you look for any excuse to get behind the wheel.

“The car has a beauty that – as with much of contemporary Scandinavian design – is rooted in the natural world.”

SCANDINAVIAN DESIGN:

Yes, it looks as good as it performs.

You know when you're driving on a highway; you look in your rear view mirror and see a really striking car's "face" approaching you? That's the Volvo S60.

"The S60's road presence comes from its focused and determined-looking headlights," explains our senior exterior designer Peter Reuterberg. "We were thinking of a wolf's eyes when we designed

the car's 'face'. The S60 has a confident, focused expression, like a powerful animal." The scalloped surfaces on the S60's bonnet accentuate the classic Volvo V-shape with a purposeful frown running right down to the headlamps. The car has a beauty that – as with much of contemporary Scandinavian design – is rooted in the natural world. "Those clean surfaces and

contours give it a very Scandinavian feel," says Reuterberg. The strong shoulders are another unmistakable Volvo design cue – as is the expressive grille with the iconic Volvo diagonal. They enhance the car's self-confident look and tell the world it's proud to be a Volvo.

“We’ve designed the cockpit around you, the driver.”

We've designed the cockpit around you, the driver. Sit in the driver's seat and the dashboard, which is gently angled towards you, puts you in complete command. Inspired by high-performance motorbikes, we came up with the idea of a single round instrument flanked by two smaller dials. Then, we carefully sculpted the three-spoke steering wheel with the aim of giving you a clear sense of connection between your car and the road.

Where you sit is equally important. Volvo takes pride in designing seats that not only offer great comfort but also outstanding support, so that at the end of every journey you make you will feel as calm and refreshed as when you started. Our sport seats look

great and, true to our commitment to ergonomic design, side support all the way from your thighs to your shoulders ensures that you keep firmly in position, even when you're cornering fast.

Of course, we're committed to a clean environment inside your car as well. As part of CleanZone, all interior materials in your Volvo are hypo-allergenic and do not emit harmful gases. CleanZone also includes a highly effective dust and pollen filter. And our Interior Air Quality System uses an active carbon filter to reduce harmful gases and particles, enabling that you and your passengers breathe easy – even in polluted cities.

No need to take your hands off your steering wheel as you shift up and down the automatic gearbox in manual mode – just flick through the gears with our optional gearshift paddles. You'll be in total command of your car, with both hands on the wheel. And quicker gear changes for a more responsive drive when you're in the mood.

“Sensus is about making your interaction with your car intuitive, and ensuring you’re on the road, but not offline.”

SENSUS

The intuitive way to interact with your car.

Volvo Sensus is our all-encompassing approach that connects you with your car and the world around you. It means you're on the road, but not offline. With Sensus Connect, you turn the 7-inch screen in your dashboard into an internet-connected infotainment hub*. Not only can you surf the web, you can also download apps – from Stitcher to TuneIn. Sensus Connect also gives you access to basic internet maps and routing, and to take advantage of navigation guidance, 3-D views and navigation apps, there's our Sensus Navigation. If you'd like to take your connectivity to the next level, there's Volvo On Call. This option gives you 3G-connectivity with excellent reception

through your car's integrated roof aerial, so you can create a Wi-Fi hotspot for all of your devices. Meanwhile, Connected Service Booking allows you to book your car in for a service from the comfort of the driver's seat.

A high-end audio experience is also part of Sensus. That's why we've designed our state-of-the-art Premium Sound with Harman Kardon®. Using 12 high-fidelity loudspeakers, the amplifier is equipped with Dirac Live®, the next generation sound enhancement software. With an incredibly realistic stage sound as well as enhanced bass performance, this sound system provides an unparalleled aural experience for every passenger and connects easily with external media players.

Our digital driver display is another delight. Not only does it give you all the information you need without overwhelming you – its three background modes, Elegance, Eco, and Performance, also sync with the centre screen. The physical controls, such as our floating centre stack with its iconic 'manikin' climate control buttons, are another example of Swedish design that's both functional and beautiful. And then there's our eye-catching illuminated gearshifter, which is available for selected automatic gearboxes. Glowing gently in the dark, it adds a touch of atmosphere to your night drives.

A special connection. Volvo On Call allows you to connect with your car as never before, while also connecting your car to the outside world.

At its heart is a smartphone app you can use to check on – and interact with – your car no matter where you are. And to go online, the package includes a built-in modem and dedicated SIM-card slot. Volvo On Call also provides help when you need it most. The On Call button in the cabin puts you through to breakdown services. And in emergencies, the cabin's SOS button provides an instant link to a team of Volvo On Call professional operators. To cover any eventuality, if there are indications that you've had an accident (such as a deployed airbag), we will call you. If there's no response, we'll send the emergency services to you straight away.

SENSUS

“Our vision is that by 2020 nobody should be killed or seriously injured in a new Volvo.”

INTELLISAFE

*Intuitive safety by Volvo Cars.
For you, and for those around you.*

At Volvo Cars, safety is an intrinsic part of our DNA. We've invented some of the world's most pioneering life-saving technologies – such as the three-point safety belt that's been acknowledged one of the most important innovations of mankind.

But we aim higher. Our vision is that by 2020 nobody should be killed or seriously injured in a new Volvo.

IntelliSafe is our approach for a more harmonious relationship between cars and people. To achieve this, we have infused your Volvo with smart, intuitive innovations for a safer drive. And the IntelliSafe technologies help protect not only the people inside your car – we also consider people on the outside, for example with technology that helps you to detect pedestrians and cyclists.

When you drive at speeds up to 31 mph, our City Safety collision avoidance technology looks ahead of you and brakes automatically if you're about to run into a vehicle in front.

To give you more support at higher speeds, our Collision Warning with Auto Brake and Pedestrian and Cyclist Detection alerts you if you're too close to a vehicle and a collision is imminent – day or night. And if necessary, your car brakes automatically to help you avoid or mitigate a collision.

To help you stay in the lane, our Lane Departure Warning or Lane Keeping Aid technology will alert or intervene if you unintentionally should cross a lane marking – there's even Driver Alert technology that reminds you to take a break in case your driving behaviour shows signs of drowsiness.

Our IntelliSafe technologies also support your daily driving. The Road Sign Information technology keeps you updated on actual speed limits and other important road signs. At night, our Active High Beam stays on high beam all the time to optimise your vision without dazzling other road users. And to make you a bit more relaxed on the road,

our Adaptive Cruise Control can maintain your set speed and distance to the vehicle in front. In slow-moving city traffic, our Queue Assist function (only available for automatics) can automatically maintain the selected distance to the car in front – from standstill and up to 18 mph. Our BLIS™ system helps you to early detect other vehicles in your blind spot, while the Cross Traffic Alert function facilitates reversing out of tight parking spaces where your vision can be restricted.

And because we know you love to drive, our active IntelliSafe technologies like Electronic Stability Control add to reassuring driving stability in all conditions without sacrificing the joy of driving. It's simply about giving you the most human-centric experience, on your terms. And helping to keep people out of harm's way, whether they happen to be inside or outside your car.

Light up the dark. Driving in the dark just became a lot more enjoyable and safer. Our Active High Beam stays on high beam all the time. You don't have to flick between low and high beam, and when you meet or catch up another vehicle the system shades out only as much of your beam as necessary to avoid dazzling – while you still get the benefit of a brightly lit road. And when you enter a city, the high beam shuts off.

FIND OUT MORE AT VOLVOCARS.CO.UK

City Safety is designed to prevent you from colliding with the car in front if it stops, or slows suddenly. This advanced IntelliSafe system will automatically brake to avoid a collision and works at speeds of up to 31 mph – an accident can be avoided at a speed difference of up to 9 mph to the vehicle in front.

Because we also care about other road users, our pedestrian and cyclist detection with full auto brake watches out for people walking in your path or cycling in the same direction as your car and applies the brakes if you're unable to react in time.

Our BLIS™ system uses radar sensor technology to alert you to vehicles that are close to or in your blind spots in your adjacent lane. This way, you're far less likely to change lanes when it isn't safe.

When you're reversing out of tight parking spaces, our Cross Traffic Alert function watches out for vehicles you can't see.

INTELLISAFE

“With our new generation 2.0-litre, four-cylinder Drive-E powertrains you don't need to sacrifice power and superb driveability for efficiency and low CO₂ emissions.”

DRIVE-E *Enjoying more. Using less.*

Drive-E isn't just about our new generation of efficient powertrains, it's about our all-embracing approach to efficient driving. And while we're committed to creating smarter, more innovative technologies to reduce our cars' impact on the environment, we'll never lose sight of the pleasure to be had in driving. In short, we believe you don't need to sacrifice power and superb driveability for efficiency and low CO₂ emissions.

Our Drive-E powertrain range consists of highly efficient, four cylinder petrol and diesel engines, up to 2.0-litre. We've mated

these turbocharged, low-friction, light-weight powertrains with our all-new eight-speed automatic gearbox, which ensures you get optimum performance at any engine speed.

Your Volvo also has an ECO+ function which can reduce fuel consumption by up to five per cent, depending on driving style. ECO+ not only optimises shift points, engine control and throttle response. It also includes a Start/Stop system and an ECO coast function. This disengages the clutch when you release the accelerator at speeds above 40 mph: instead of the engine braking

the car and using up fuel in the process, your Volvo will coast along using its kinetic energy.

Our Drive-E diesel powertrains have additional technologies designed to reduce fuel consumption and emissions. Twin turbochargers and the revolutionary i-ART ensure that these intelligent engines provide responsive, clean and efficient performance – each cylinder has its own microchip and pressure sensor for perfect metering of fuel. Better still, these advanced engines remain in precise tune even after years of use.

The Volvo S60 is available with a wide range of cutting-edge engines designed to meet your preferences. All of them are designed to offer maximum driving pleasure while using fuel efficiently and keeping CO₂ emissions at a minimum.

Are you looking for maximum power and efficiency? Our high-performance 190 hp D4 diesel powertrain will provide uncompromised efficiency and refinement while just emitting 102 g CO₂/km. Or do you want the ultimate combination of fuel economy and performance? Then choose our 120 hp D2 engine, which consumes just 74.3 mpg and emits 99 g CO₂/km. With the 190 hp T4 petrol powertrain you'll benefit from a fuel consumption of a mere 50.4 mpg (131 g CO₂/km).

DRIVE-E

When you accelerate
out of a corner...
It's like it can read your mind.

We've focused on the S60's natural driving dynamics so that its actions immediately correspond to your desires.

When you accelerate out of a tight corner, for example, your S60 will follow the path you choose with almost telepathic accuracy. Drivers will love Corner Traction Control, a torque vectoring system that helps you avoid

understeer by applying just the right amount of power and brake force to the inner and the outer wheels as you accelerate out of a corner. You'll find this particularly handy if you're merging into fast moving traffic from a side road.

What's more, a good chassis is the foundation behind any great handling car,

and S60 owners can choose from two individual chassis types: Dynamic and our R-Design Sport chassis. We've spent thousands of hours perfecting and tuning them. We think you'll be thrilled by the result: a responsive, in-command driving experience, whichever option you choose.

FREEDOM OF CHOICE, YOUR CHOICE

In a Volvo, you can enjoy the finer aspects of freedom. Such as the freedom to explore new roads, the freedom to enjoy the experience and – not least – the freedom to create a car that matches your style and personality. Choosing a Volvo is more than a statement of your personality. It's about knowing what's most important in life and going in that direction. To show a greater care for people and the world we share, and never compromise with design and quality.

To choose a car that's more human-centric, more intuitive and more efficient – simply much of what empowers you to live a rich, authentic life.

To ensure you get your new Volvo S60 exactly as you want it, we have created a wide range of options, trim levels and personal expressions. Even if your S60 is generously equipped already as standard and in the Business Edition trim level, you may want to enhance the experience even

further with the SE Nav trim level. Maybe you want to indulge your senses in the finest Scandinavian luxury. Then you'll feel at home with SE Lux Nav. Or if you're in for a more sporty style inside and out: why not take a look at R-Design Nav? Whatever you prefer, you can rest assured there's a Volvo S60 for you. Read on, and see what your new S60 will look like.

Volvo S60 Business Edition

Volvo S60 SE Nav

Volvo S60 SE Lux Nav

Volvo S60 R-Design Nav

THE RIGHT EQUIPMENT FOR YOUR DRIVE

Choosing a Volvo S60 is the easy part. And now all you need to do is select the equipment level that's right for you. Already the equipment level Business Edition will provide you with a high level of technology that will meet high demands on style, comfort and safety. For example, you get our world-leading IntelliSafe technologies including the award-winning City Safety collision avoidance technology and advanced Electronic Stability Control as standard.

To further enhance your Scandinavian luxury experience, there's the option of our SE Nav equipment level. Bright deco exterior design elements together with larger 17-inch wheels will add to the exclusiveness and road presence of your S60, while the sporty elegant leather-faced upholstery and Milled aluminium decor inlays complement the interior ambience. With SE Nav, you can also enjoy the clear sound reproduction of our High Performance audio system including

Bluetooth® music streaming and convenience enhancing features such as rear park assist. And when driving in the dark, the optional Active Bending Lights ABL with Dual Xenon illumination technology allow you to enjoy the benefit of boosted vision round bends at night. These come with Active High Beam functionality, you can stay on high beam all the time without dazzling other road users.

S60 BUSINESS EDITION

Includes:

16" Alloy Wheels | 3-point safety belts on all 5 seats with belt reminder | 40/60 split rear seat | Airbag, driver & passenger side | Audio controls in steering wheel | AUX input | Charcoal decor inlays | City Safety | Corner Traction Control (CTC) | Cruise control | Dual cup holders, front | Sensus Connect with 7" colour screen in centre stack and High Performance audio with CD/ DVD player | Electronic Stability Control (ESC) | Electrically operated parking brake | Electronic Climate Control (ECC) with ventilation outlets in B-pillars | Front seat 12V outlet | Headlamp level adjuster | Illuminated vanity mirror, passenger and driver side | Inflatable Curtains (IC) | ISOFIX, rear | LED DRL (Daytime Running Light) | Leather-clad gear knob | Leather-clad steering wheel | Lock door switch passenger side | Mellbystrand Textile upholstery | Outer temperature gauge | Remote control central locking | Bluetooth® | Side impact airbags integrated in the front seats | Textile floor mats | Trip computer | Tyre sealant kit | Tyre Pressure Monitoring System (TPMS) | WHIPS™ (whiplash protection integrated in the front seats)

SE NAV

Includes Business Edition equipment level plus the following:

17" Pallene alloy wheels | Automatically dimmed frameless inner mirror | Bright work around side windows | Leather-faced upholstery | Leather-clad steering wheel with silk metal inlay | Retractable rear view mirrors with ground lights | Milled Aluminium decor inlays | Grocery bag holder

A HIGHER GRADE OF LUXURY

We created the S60 SE Lux Nav to meet your highest expectations on Scandinavian luxury. It's a personal expression that evokes a strong sense of elegant refinement. Each detail is there to give you and your passengers a sophisticated and invigorating

experience. Distinguished exterior design cues enhance the luxurious look and feel of the S60, while the meticulously crafted interior gives you ample room for a relaxed driving experience. The S60 SE Lux Nav epitomizes our proud heritage of human-

centric design. And when it comes to intelligent luxury imbued with distinctive style and fresh thinking, the S60 SE Lux Nav is in a class of its own – just like you.

S60 SE LUX NAV

Includes SE Nav equipment level plus the following:

Digital driver display | Power driver seat with memory function for seat and side mirrors | Rear armrest with cup holders and storage | Chrome front deco | Keyless Drive with PCC | Active TFT Driver Display | Active Bi-xenon headlights | Headlight cleaning system | Rear centre armrest with storage and cup holders

SE Lux Nav is Volvo S60 in its most luxurious guise. Well-judged exterior design cues such as front chrome inlays combine with the stylish 17-inch alloy wheels to enhance the car's timeless Scandinavian design. The wheels also contribute to the car's confident stance.

Inside, the luxurious theme continues with authentic, finely crafted materials that create a lounge-like atmosphere of

sumptuous wellbeing. As a driver, you can lean back in a sculpted power-operated Comfort seat with smooth leather upholstery and enjoy the intuitive view of the digital driver display. Depending on your mode, this display gives you three graphic modes to choose from: the default mode Elegance with its stylish black colour theme, the green Eco mode and Performance mode in striking red. The memory function of the power seat

allows you to store your settings both for the seat and the door mirrors. Every time you use your remote control to unlock the car, the driver's seat and the door mirrors will automatically adjust to your last settings. And for your passengers in the leather rear seat, an armrest with cup holders and storage adds to relaxed comfort and convenience.

The S60 SE Lux Nav exterior with its subtle design touches is a timeless expression of classical Scandinavian design. The exterior colour palette allows you to create the S60 Summum that best reflects your style and preferences. Available in a wide range of design expressions, the alloy wheels connect visually with the exterior design cues to create a harmonic impression of contemporary elegance.

INSPIRED BY THE ART OF DRIVING

If you love to drive, the S60 R-Design is for you. With a unique personality, R-Design captures the thrill of a spirited driving experience characterised by style, response and control. A wealth of distinguished design details raise the dynamic soul of your Volvo sports sedan and give it a more sporty, distinct road presence. It's an

expression that catches the eye from every angle and hints the promise of an amazing drive, every time. And you can rest assured the S60 R-Design will deliver. Surrounded by meticulously crafted and expressive interior design details, you can feel it already the moment you take your position in the sculpted R-Design sport seat. Everything

– from the R-Design steering wheel and digital driver display, to the Charcoal headliner – is there to inspire and support your drive. And for even better cornering, the S60 R-Design benefits from a fine-tuned sport chassis.

S60 R-DESIGN NAV

18" Ixion III alloy wheels | 3-spoke perforated leather-clad steering wheel with metal R-Design badge | Digital driver display with R-Design theme | Dual exhaust with visible tailpipes | Charcoal headliner | R-Design LED dayrunning lights | Leather-clad sport gear knob | Nubuck Textile/leather upholstery | R-Design interior decor trim | Rear-view mirror caps in silver metallic finish | Sport chassis | Sport floor mats | Sport pedals | Sport seats | Stainless steel treadplates with R-Design logo | Unique R-Design front design | Unique R-Design rear diffuser

R-Design is Volvo in smart designer sports gear – it's all about a performance-inspired look and feel, both inside and out. It's a truly eye-catching expression with sporty exterior design cues, such as its own distinctive grille in Matt Tech Black with high-gloss stripes, front spoiler, Bright Silver matt finish door mirror caps and striking 18-inch alloy wheels. At the back, prominent chrome dual tailpipes and a motorsport style rear diffuser with aero fins add the perfect finishing touch.

On the inside, the sporty theme continues with unique R-Design decor inlays, Charcoal headlining and R-Design sport seats in Nubuck Textile/leather or leather-faced.

Together, these features give the cabin a technical, cockpit-like feel. Contrasting stitching in the seats, the gear shifter gaiter and the steering wheel in perforated leather all reinforce the sporty yet elegant ambience. The deeply sculpted R-Design sport seats will embrace you from the thighs to the shoulders for the comfortable support and in-command feel you expect of a true driver's car. Further adding to your sense of being in control, the R-Design also provides you with a digital driver display with a unique R-Design display mode.

Behind the wheel, you can enjoy the sharp response and feedback from quicker steering

and a finely tuned R-Design sport chassis. Lower and firmer, this chassis features adjusted anti-roll bars and stiffer springs. The unique rear monotube dampers are designed to respond more quickly for improved body control in all conditions. Stiffer bushings together with a front strut brace that stiffen up the body structure give more controlled roll and body movements, resulting in a sporty road-hugging drive without you having to compromise ride comfort.

The S60 R-Design is available with all powertrains.

The exterior leaves no doubts of the intention with your S60 R-Design. The exterior colours are carefully selected to match the car's dynamic character – each with its unique expression. For example, the new R-Design exclusive Bursting Blue metallic adds a techy, sporty look that perfectly highlights the body inserts in high-gloss black and silk metal finish. The new stylish Ixion five-spoke R-Design 18-inch or 19-inch wheels give your S60 R-Design a dynamic road presence that puts your sports sedan in a class of its own.

“Our park assist camera, front blind view allows you to ‘see around corners’ as you negotiate tight exits.”

NO TWO LIVES ARE THE SAME.

Make sure your Volvo matches yours.

A pleasurable part of buying a new Volvo is putting your personal stamp on it. You can do that by choosing accessories that reflect your own taste and that cater to your particular lifestyle.

To take the stress out of driving we have developed technology such as our park assist camera, front blind view. It allows you to see around corners with a 180° field of vision as you negotiate tight exits with restricted visibility. The image is projected onto your 7-inch centre display so you know exactly who, or what, is approaching.

Our park assist camera, rear does the same job when you reverse. It's mounted in

the boot lid and dramatically increases your field of vision behind the car. The image is projected onto your centre display, so you can spot any low obstructions when manoeuvring. There's also a zoom-in view you can use to hitch up a trailer to your towbar.

For your children, our new generation Volvo child seats helps provide world-class protection and premium comfort. Infants of up to one year (or 13 kg) travel safely backwards in our new comfortable rear-facing infant seat. And because we recommend that children should travel facing to the rear as long as it's possible,

our new rear-facing child seat for children up to 6 years (or 9–25 kg) allows the child to be seated backwards for many years with generous legroom. When the child has outgrown the rearward facing child seat, our new booster seat with backrest is designed to position the child at the correct height for the safety belt. The child seats' elegant soft wool upholstery matches the interior of your Volvo and provides excellent breathable and moist-absorbing characteristics for maximum comfort.

To reinforce the dynamic stance of your S60, you can customise it with our Exterior Styling Accessories, which are available in Matt Silver or Matt Iron Stone.

Our eye-catching front skid plate gives your S60 an even more purposeful look, with a metallic finish that's beautifully accentuated as it catches the light. The side scuff plates emphasise the S60's sleek, coupé-like lines, visually connecting it close to the road. The rear skid plates with beautifully sculpted double integrated tailpipes boldly underline the S60's sporty character.

“Our Rear Seat Entertainment system with 8-inch touchscreens and integrated DVD players can operate independently.”

Since there can only be one driver at a time, the S60 also offers some premium amusements for your rear seat passengers. Our Rear Seat Entertainment system with 8-inch touchscreens and integrated DVD players can operate independently. Wireless headphones are standard (you can also plug in your own wired headphones), so one's game doesn't fight with another one's movie.

And adding our illuminated instep plates, you'll enjoy a sophisticated welcome every time you open the front door and enter your S60 – the Volvo logo embedded in the brushed stainless steel footstep lights up together with the interior lighting.

1. The Complete Performance Package includes essential hardware to add performance while subtle exterior details – such as the black door mirror caps and black lower door decor stripes – underline the dynamic appearance of your S60.

Polestar Performance Parts.
Made to Perform.

2. The Polestar boot lid spoiler will efficiently aid high-speed stability as well as sharpen the car's appearance. **3.** The lightweight Polestar 19-inch alloy wheels with high-performance tyres will help with added steering precision and road grip. **4.** Designed to reduce back-pressure, the stainless steel exhaust system with larger tailpipes gives the engine note a harder edge while also allowing it to breathe more freely for improved performance. A rear diffuser enhances downforce to increase stability at high speeds. **5.** The engraved Polestar instep plate in stainless steel reminds you what you're about to drive every time you open the door. **6.** Sport pedals in aluminium with rubber inserts. **7.** The Polestar gear knob is available for both manual and Geartronic™ transmissions.

It is our passion for driving that led us to design this range of Polestar Performance Parts for your Volvo S60. Developed by the same team responsible for our motorsport success and our dynamic road car Volvo S60 Polestar, the new Polestar Performance Parts programme fulfils Volvo Polestar's engineering philosophy by delivering a balanced, energetic driving experience.

The Polestar Performance Parts are designed for the most critical performance

areas of your S60 and is available as a Complete Performance Package. This includes everything from improvements to the chassis, wheels and tyres, intake and exhaust as well as aerodynamics and interior details. Any of these components will create a more compelling drive, and are also available in separate packages. With the Chassis Package you'll get Polestar-developed shock absorbers and coil springs, as well as a strut bar, for a more direct and responsive driving experience. The Wheel Package includes the lightweight 19-inch Polestar wheel and high-performance tyres

for maximum grip. Then there's the Intake & Exhaust Package, designed for our new generation Drive-E powertrains. It combines a sports air filter with a Polestar cover and a stainless steel exhaust system. This package will deliver the most dynamic engine characteristics when combined with the Polestar Performance Optimisation. All Polestar Performance Parts meet all Volvo safety requirements. They are developed and tested by Volvo Cars and Polestar, ensuring a perfect fit and finish, as well as impeccable road manners, and with no impact on the car's limited factory warranty.

The simplest way to own a car.

We love it when you're happy. When things are easier than you expect, or go faster and become better. Because when you buy a Volvo, you buy the simplest way to have a car. Financing, insurance, servicing, changing tyres, cleaning – those aspects of car ownership that you might not find very interesting, are the ones that we love to

make easier and better for you. That's why your Volvo dealer will always offer you a whole range of simplifying services and offers all designed around you, giving you the most carefree ownership experience possible.

Still, this is just the beginning. Through our uniquely Swedish approach to innovation, we continuously find new ways to make your

life simpler. For instance, the Connected Service Booking function, which lets you book an appointment just by pushing a button in your car or our Volvo Service Promise, eight commitments to you guaranteeing an unbeatable combination of quality, reassurance and expertise.

MY VOLVO

My Volvo is a personalised website that contains everything you need to really get to know – and get the most out of – your car. It gives you:

- A complete overview of your Volvo ownership
- Track your new car order
- Easy access to all facts relating to your car
- Personalised offers and exclusive discounts
- Helpful tips regarding your specific Volvo model
- Instructional films and owner's manuals
- Online Service Booking
- Reminders regarding important stages of your car ownership
- Exclusive articles, films and photographs

CONNECTED SERVICE BOOKING

If your Volvo has Sensus Connect, it will remind you when it needs servicing and offer to contact your Volvo dealer for you. Booking proposals sent from your preferred dealer can easily be managed directly in the car or on your personal My Volvo website. When the time comes to drive to your workshop, your Volvo will remind you and even guide you there. And since your Volvo tells us what it needs, we can make sure it always receives the service it requires when it gets there.

N.B Some information may have been updated since this brochure was printed. Some of the equipment described or shown may now be available only at extra cost. Before ordering, please ask your Volvo dealer for the latest information. The manufacturer reserves the right to make changes at any time, without notice to prices, colour, materials, specifications and models.

V O L V O

**Official fuel consumption for the Volvo S60 in MPG
(l/100km) ranges from:**

Urban 37.7 (7.5)–65.7 (4.3), Extra Urban 58.9 (4.8)–80.7 (3.5),
Combined 48.7 (5.8)–74.3 (3.8). CO₂ Emissions range from 134–99g/km.
MPG figures are obtained from laboratory testing intended for comparisons
between vehicles and may not reflect real driving results.
